

# DuraPaper™ Specialty Media

## Permanent Paper Range

DuraPaper Specialty Media offers an innovative solution for printers requiring a paper that can be handled or put in harsh environments. This paper is designed to withstand moisture and the image will still remain intact. This specialty media product is waterproof, tear resistant and demonstrates outstanding toner adhesion without cracking.

### Product Features

- DuraPaper is a synthetic material with a special coating for optimum digital printing applications
- The porous nature of the sheet allows inks, adhesives, coatings and laminating films to penetrate into its structure to form strong anchor points within the substrate
- Professional and durable product with an outstanding print quality
- No toner cracking in folding of solid areas
- The synthetic material is not acidic and has no lignin in it
- Durability: Waterproof, chemical, abrasion and tear resistant
- Qualified for long runs and duplex mode
- Sheets should be fanned prior to usage to ensure optimum runnability

### Applications

- Identification Cards
- Licenses
- Tags
- Manuals
- Maps
- Price Sheets
